GSA Privacy Impact Assessment (PIA): PIA-361

Created Date: 3/3/2022 1:48 PM Last Updated: 4/6/2022 4:48 PM

Instructions

Privacy Impact Assessment (PIA)

The Privacy Impact Analysis (PIA) questionnaire is applicable to information systems which store or process privacy data. The questionnaire collects information about the types of privacy data which are stored and processed, why it is collected, and how it is handled. A PIA is required based on the results of a Privacy Threshold Analysis (PTA) questionnaire that has been completed for the information system.

Review the following steps to complete this questionnaire:

- 1) Answer questions. Select the appropriate answer to each question. Question specific help text may be available via the 2 icon. If your answer dictates an explanation, a required text box will become available for you to add further information.
- 2) Add Comments. You may add question specific comments or attach supporting evidence for your answers by clicking on the connext to each question. Once you have saved the comment, the icon will change to the connect to show that a comment has been added.
- 3) Change the Status. You may keep the questionnaire in the "In Process" status until you are ready to submit it for review. When you have completed the assessment, change the Submission Status to "Submitted". This will route the assessment to the proper reviewer. Please note that all values list questions must be answered before submitting the questionnaire.
- **4) Save/Exit the Questionnaire.** You may use any of the buttons at the bottom of the screen to save or exit the questionnaire. The 'Save and Close' button allows you to save your work and close the questionnaire. The 'Save and Continue' button allows you to save your work and remain in the questionnaire. The 'Cancel' button closes the questionnaire without saving your work.

PIA Overview		
A.System Name:	A. System, Application, or Project Name:	GSAJOBS
B.Includes:	B. System, application, or project includes information about:	Applicants applying to GSA Federal Government job positions.
C.Categories:	C. For the categories listed above, how many records are there for each?	900,000 unique records about applicants for GSA employment as of 2022.
D.Data Elements:	D. System, application, or project includes these data elements:	a. Name and other biographic information (e.g., date of birth)
		b. Contact Information (e.g., address, telephone number, email address)
		c. Social Security Number, Driver's License Number or other government-issued identifier
		d. Financial Information
Overview:	The GSAJobs Hiring Management System is a web-based application used by the General Services Administration (GSA) Office of Human Resources Management (OHRM) as a tool for electronic automation of staffing and HR management related functions. Monster Government Solutions (MGS) is the FedRAMP authorized Software as a Service Provider that has a leasing agreement with GSA to provide the Monster Hiring Management Enterprise suite (MHME) online services. GSA HR users access the MHME suite via the Internet and use the tool for creating and managing vacancies, notifying potential applicants of those vacancies via the Internet, collecting and processing applicant data, ranking applicant qualifications based on such data, and allowing managers to view qualified applicants via an online certificate of eligible applicants. Information stored and processed by MHME includes employment-related data such as job vacancies, position descriptions, position requirements and necessary qualifications, applicant questions, and various other factual data. MHME also stores applicant information such as	
	The overall purpose of MHME is to improve the hiring the automation of the process from the vacancy creat processes. MHME does this through several functions, vacancies, displaying those vacancies to potential emprocessing employment application and applicant personaking applicants' qualifications based on such data. correspondence functionality that employ candidates notified of the respective hiring decisions. f Collection		
maintain, use, or disseminate the information?		The nature of the system requires it. The Privacy Act of 1974 is a federal law that governs our collection and use of records we maintain on you in a system of records. In addition 5 U.S.C. 1302, 2951, 3301, 3372, 4118, 8347, and Executive Orders 9397, as amended by 13478, 9830, and 12107 are the authorities for maintaining personnel information. Authorities for recording Social Security Numbers are E.O. 9397, 26 CFR 31.6011(b)–2, and 26 CFR 31.6109–1.
Is the information searchable by a personal identifia name or Social Security number?	ïer, for example	Yes
If so, what Privacy Act System of Records Notice(applies to the information being collected?	s) (SORN(s))	Existing SORN applicable
	PIA-1.2 System Of Record Notice (SORN) CR:	
What System of Records Notice(s) apply/applies to the information?		System of Records Notice (SORN) - OPM-GOVT-5, 71-FR-35351 June 19, 2006
Explain why a SORN is not required.		
Has an information collection request (ICR) been submitted to or approved by the Office of Management and Budget (OMB)?		No
Provide the relevant names, OMB control numbers, and expiration dates.		No ICR has been submitted.
What is the records retention schedule for the information system(s)? Explain how long and for what reason the information is kept.		GSAJOBS complies with all GSA retention and disposal procedures specified by 1820.1 CIO P GSA Records Maintenance and Disposition System. Records contained in the HR Links system will be retained consistent with section 2.2 of NARA General Records Schedule, "Employee Management Recordsâ€. See https://www.archives.gov/files/recordsmgmt/grs/trs29-sch- only.pdf. Disposition Authority Number: DAA-GRS-2016-0014-0001 - Destroy when 3 years old, or 3 years after superseded or obsolete, whichever is appropriate, but longer retention is authorized if required for business use.
	Is the information searchable by a personal identification aname or Social Security number? If so, what Privacy Act System of Records Notice(applies to the information being collected? What System of Records Notice(s) apply/applies to information? Explain why a SORN is not required. Has an information collection request (ICR) been approved by the Office of Management and Budge Provide the relevant names, OMB control number dates. What is the records retention schedule for the info system(s)? Explain how long and for what reason	What legal authority and/or agreements allow GSA to collect, maintain, use, or disseminate the information? Is the information searchable by a personal identifier, for example a name or Social Security number? If so, what Privacy Act System of Records Notice(s) (SORN(s)) applies to the information being collected? PIA-1.2 System Of Record Notice (SORN) CR: What System of Records Notice(s) apply/applies to the information? Explain why a SORN is not required. Has an information collection request (ICR) been submitted to or approved by the Office of Management and Budget (OMB)? Provide the relevant names, OMB control numbers, and expiration dates. What is the records retention schedule for the information system(s)? Explain how long and for what reason the information

2.0 Openness and Transparency

PIA-2.1: Will individuals be given notice before the collection, maintenance, Yes use or dissemination and/or sharing of personal information about

them?

PIA-2. 1Explain: If not, please explain.

3.0 Data Mini	3.0 Data Minimization				
PIA-3.1:	Why is the collection and use of the PII necessary to the project or system?	The GSAJOBS Hiring Management System (GSAJOBS) is a web-based application used by the General Services Administration (GSA) as a tool for electronic automation of staffing and HR management related functions used by the Office of Human Resources Management (OHRM). GSA's GSAJOBS system resides on Monster's Hiring Management Enterprise System (MHME) that has a leasing agreement with GSA to provide the application's online services. GSA HR users access the GSAJOBS application via the Internet and use the tool for creating and managing vacancies, notifying potential applicants of those vacancies via the Internet, collecting and processing applicant data, ranking applicant qualifications based on such data, and allowing managers to view qualified applicants via an online certificate of eligible applicants. Information stored and processed by Monster's MHME includes vacancy data such as job descriptions, questions, and criteria; as well as applicant data such as resumes, contact information, and social security numbers. Monster may access applicant data when working to resolve reported system issues, or to support GSAJOBS inquiries, or run reports.			
PIA-3.2:	Will the system, application, or project create or aggregate new data about the individual?	No			
PIA-3. 2Explained:	If so, how will this data be maintained and used?				
PIA-3.3:	What protections exist to protect the consolidated data and prevent unauthorized access?	GSAJOBS has implemented the required security and privacy controls according to NIST SP 800-53. GSAJOBS employs a variety of security measures designed to ensure that information is not anappropriately disclosed or released. These measures include security and privacy controls for access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, planning, personnel security, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and program management.			
PIA-3.4:	Will the system monitor the public, GSA employees, or contractors?	None			
PIA-3. 4Explain:	Please elaborate as needed.	GSAJOBS does not monitor job applicants.			
PIA-3.5:	What kinds of report(s) can be produced on individuals?	GSAJOBS may create reports related to job applicants for a particular position, job series or similar category.			
PIA-3.6:	Will the data included in any report(s) be de-identified?	No			

PIA-3. 6Explain: If so, what process(es) will be used to aggregate or de-identify the GSAJOBS does not de-identify data for

reporting.

N/A. No data will be de-identified

data?

PIA-3.6Why Not: Why will the data not be de-identified?

4.0 Limits on Using and Sharing Information			
PIA-4.1:	Is the information in the system, application, or project limited to only the information that is needed to carry out the purpose of the collection?	Yes	
PIA-4.2:	Will GSA share any of the information with other individuals, federal and/or state agencies, or private-sector organizations?	Federal Agencies	
PIA-4.2How:	If so, how will GSA share the information?	Monster may access applicant data when working to resolve reported system issues or to support GSAJOBS inquiries or run reports.	
PIA-4.3:	Is the information collected:	Directly from the Individual	
PIA-4.3Other Source:	What is the other source(s)?	The information collected from job applicants is input directly into OPM's USAjobs. USAjobs then transfers the information collected directly into GSAJOBS Seeker when an applicant applies for a GSA vacancy.	
PIA-4.4:	Will the system, application, or project interact with other systems, applications, or projects, either within or outside of GSA?	Yes	
PIA-4.4Who How:	If so, who and how?	The GSA implementation of the GSAjobs application is a web-based SaaS interface. The boundary between the GSAjobs application and the FedRAMP authorized Monster Hiring Management Enterprise System (HMES). The GSAJOBS system resides on the Monster'S Hiring Management Enterprise System (MHME) platform, which interacts with USAJOBS. GSAJOBS is also connected to the GSA Enterprise Service Bus. Formal agreements are in place for both connections.	
PIA-4. 4Formal Agreement:	Is a formal agreement(s) in place?		
PIA-4.4No Agreement:	Why is there not a formal agreement in place?	N/A	

5.0 Data Quality and Integrity			
PIA-5.1:	How will the information collected, maintained, used, or disseminated be verified for accuracy and completeness?	Individuals/job applicants provide and self- certify the accuracy of the information in the system.	

6.0 Security		
PIA-6.1a:	Who or what will have access to the data in the system, application, or project?	GSAJOBS has individual and administrative role access to the data in the system. The access authorization is covered under the SP 800-53 access controls. Monster may access applicant data when working to resolve reported system issues or to support GSAJOBS inquiries or run reports.
PIA-6.1b:	What is the authorization process to gain access?	Monster may access applicant data when working to resolve reported system issues or to support GSAJOBS inquiries or run reports.
PIA-6.2:	Has a System Security Plan (SSP) been completed for the Information System(s) supporting the project?	Yes
PIA-6.2a:	Enter the actual or expected ATO date from the associated authorization package.	3/25/2023
PIA-6.3:	How will the system or application be secured from a physical, technical, and managerial perspective?	GSAJOBS has implemented the required security and privacy controls according to NIST SP 800-53. GSAJOBS employs a variety of security measures designed to ensure that information is not inappropriately disclosed or released. These measures include security and privacy controls for access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, planning, personnel security, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and program management.
PIA-6.4:	Are there mechanisms in place to identify and respond to suspected or confirmed security incidents and breaches of PII?	Yes
PIA-6.4What:	What are they?	GSAJOBS has implemented the required security and privacy controls according to NIST SP 800-53. GSAJOBS employs a variety of security measures designed to ensure that information is not inappropriately disclosed or released. These measures include security and privacy controls for access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, planning, personnel security, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and program management.

7.0 Individual Participation			
PIA-7.1:	What opportunities do individuals have to consent or decline to provide information?	The opportunities are defined with in the SORN that covers GSAJOBS: OPM-GOVT-5, 71-FR-35351 June 19, 2006	
PIA-7.10pt:	Can they opt-in or opt-out?	Yes	
PIA-7. 1Explain:	If there are no opportunities to consent, decline, opt in, or opt out, please explain.		
PIA-7.2:	What are the procedures that allow individuals to access their information?	Job applicants create accounts in USAJobs where they can access and modify information as needed. The information is forwarded to GSAJOBS. GSA hiring managers gain access through GSA's Enterprise Access Request System (EARS) and the account information/changes would be processed through EARS. EARS is used to provision, track, and audit GSA employee/contractor access to GSA applications. EARS works in conjunction with Rational ClearQuest for account approval, account management, and re- certification and has Authority to Operate under the Ancillary Financial Applications (AFA) FISMA Moderate boundary. EARS ensures adherence to the "IT Security Procedural Guide: Access Control (AC) CIO-IT Security-01-07†ensuring personnel authorization best practices are implemented and followed when authorizing application access. The use of EARS systematically implements the general activities for authorizing personnel to access IT resources.	
PIA-7.3:	Can individuals amend information about themselves?	Yes	
PIA-7.3How:	How do individuals amend information about themselves?	Individuals/job applicants provide biographical and career information into the system.	

8.0 Awareness and Training

PIA-8.1: Describe what privacy training is provided to users, either generally or specifically relevant to the system, application, or

project.

The GSAJOBS solution team is responsible for providing basic security awareness training to its employees. Security awareness training is also given as part of the on-boarding process to all GSA employees and contractors and must be completed their Security awareness training prior to gaining access to any GSAJOBS environment. All GSAJOBS solution team personnel receive initial security awareness training upon on-boarding, and conduct annual refresher training.

9.0 Accountability and Auditing

PIA-9.1: How does the s

How does the system owner ensure that the information is used only according to the stated practices in this PIA?

GSAJOBS has implemented the required security and privacy controls according to NIST SP 800-53. The systems employ a variety of security measures defined in the System Security Plan (SSP) designed to ensure that information is not inappropriately disclosed or released. These measures include security and privacy controls for access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, planning, personnel security, risk assessment, system and services acquisition, system and communications protection, along with system and information integrity.
